Spill # 01-06-28-1610-13

Hello Ralph:

I'm the case manager for the Unimatic site and Mike Mand. referred me to you. I need your assistance in finding an incident report for ISRA case: Unimatic (E20010335). I checked NJEMS and it shows that the spill # is pre-NJEMS and I need to know what is the incident that generated the assigned spill #. Let me know when you have some time this afternoon and I'll stop by your desk. I will be in a meeting from 10 to noon.

Thanks, Gene
